Statement regarding the current situation for the tournaments in May and June

Dear coaches, dear parents and children,

as promised before, I now turn to you after the press conference of the federal government in Germany today.

We would have loved to get definitive answers, but unfortunately the situation remains still unclear...

So far the relaxation of the current measures does not include our tournaments - while our tournaments do not fall under the general prohibition of big events like festivals or trade fairs, we have to wait for the decision of each region in Germany which have quite some autonomy in determining the rules for the next weeks and months. We will therefore have to wait a little bit more before we know for sure about the status of our tournaments.

Of course, this uncertainty is difficult for you, because it of course makes the parents and children nervous.

Unfortunately it is not easy for us either, as we cannot cancel the tournaments on our own for legal reasons. We have entered into numerous contractual obligations with all participants on the one hand and with numerous service providers, accommodations, suppliers on the other hand, which we cannot resolve at this point without heavy penalties.

Furthermore, we are of the opinion that, especially after this long isolated time, every child deserves to experience a wonderful weekend.

So we will continue to plan the tournaments professionally and send you more preparatory mails - as long as the possibility remains.
If you haven’t made the last payment yet, you don’t have to do so for now. We would only ask you to do so, if it’s clear the tournament can take place.

We will get back to you latest on April 30, hopefully with final information.

Of course you can also contact us by phone, we are there for you all the time.

Stay healthy and keep your fingers crossed!

Best wishes

Fabian
